

Section 9: Table 1.3. Current year Top international meeting cities in 2013

This table is extracted from Table 1.1.

Please see the Introduction or the introductory notes to Table 1.1. for an explanation of the column headings "A" and "A+B" and "A+C".

In this table, only the cities with **more than 30 meetings**, whether of type A or type A+B together or type A+C together, are included. Details of other cities can be found in Table 1.1. The total meetings of all cities, as listed in Table 1.1., is used to calculate the percentages.

Three lists are given:

- Cities are listed in descending order of the total number of meetings of type A, with more than 30 such meetings
- Cities are listed in descending order of the total number of meetings of type A+B, with more than 30 such meetings
- Cities are listed in descending order of the total number of meetings of type A+C, with more than 30 such meetings

Caveat: It should be remembered that the number of meetings in the database for the current reporting year will, on average, increase by 11% over the next year, and by 37.6% over the following five years.

City	A: total meetings	A: as % of world	City	A+B: total meetings	A+B: as % of world	City	A+C: total meetings	A+C: as % of world
1 Singapore, Singapore	837	8.7	1 Singapore, Singapore	994	9.4	1 Singapore, Singapore	1132	10.2
