

Section 9: Table 1.4. Current year Top international meeting countries in 2013 by continental grouping

This table is extracted from Table 1.1.

Please see the Introduction or the introductory notes to Table 1.1. for an explanation of the column headings "A" and "A+B" and "A+C".

In this table, the 8 to 10 countries, per continental grouping, with the most meetings, whether of type A or type A+B together or type A+C together, are included. Details of other countries can be found in Table 1.1. The total meetings of all countries, as listed in Table 1.1., is used to calculate the percentages.

Three lists are given:

- Countries are listed by continental grouping, in descending order of the total number of meetings of type A
- Countries are listed by continental grouping, in descending order of the total number of meetings of type A+B
- Countries are listed by continental grouping, in descending order of the total number of meetings of type A+C

Caveat: It should be remembered that the number of meetings in the database for the current reporting year will, on average, increase by 11% over the next year, and by 37.6% over the following five years.
