

## Section 9: Table 2.2. (a) Five year review

### Top international meeting cities in 2009-2013: Type A

This table lists the cities with at least 100 meetings of type A during the period 2008 to 2012, giving the total number of meetings of type A. This table lists the cities with at least 100 meetings of type A during the period 2009 to 2013, giving the total number of meetings of type A in each city per year from 2009 to 2013. Cities are listed in alphabetical order.

**Meetings counted under the heading "A" are "Meetings of international organizations" and meet all the following criteria:**

- meetings organized or sponsored by "international organizations", i.e. international non-governmental organizations (INGOs) and intergovernmental organizations (IGOs) that are included in the UIA's *Yearbook of International Organizations* (see the Introduction "What is an 'international organization'") and whose details are subject to systematic collection and updates on an annual basis by the UIA
- with at least 50 participants, or number of participants unknown

The total meetings of all cities for each year of type A is used to calculate the percentages.

**Caveat:** When comparing consecutive years in flux, it should be remembered that both years' totals can be expected to change over time, the latest slightly more rapidly than the older. The number of meetings in the database for the current reporting year will, on average, increase by 11% over the next year, and by 37.6% over the following five years.
