

## Section 9: Table 2.6. Five year review

### Number of participants in international meetings by month in 2009-2013

This table lists the number of meetings of type A by month and by number of participants for each of the years from 2009 to 2013.

Meetings for which the number of participants is unknown, or for which the month is unknown, are **not** included here.

**Meetings counted under the heading "A" are "Meetings of international organizations" and meet all the following criteria:**

- meetings organized or sponsored by "international organizations", i.e. international non-governmental organizations (INGOs) and intergovernmental organizations (IGOs) that are included in the UIA's *Yearbook of International Organizations* (see the Introduction "What is an 'international organization'") and whose details are subject to systematic collection and updates on an annual basis by the UIA
- with at least 50 participants, or number of participants unknown

**Caveat:** When comparing consecutive years in flux, it should be remembered that both years' totals can be expected to change over time, the latest slightly more rapidly than the older. The number of meetings in the database for the current reporting year will, on average, increase by 11% over the next year, and by 37.6% over the following five years.
