

Section 9: Table 1.3. Current year Top international meeting cities in 2012

This table is extracted from Table 1.1.

Please see the Introduction or the introductory notes to Table 1.1. for an explanation of the column headings "A" and "A+B" and "A+C".

In this table, only the cities with **at least 30 meetings**, whether of type A or type A+B together or type A+C together, are included. Details of other cities can be found in Table 1.1. The total meetings of all cities, as listed in Table 1.1., is used to calculate the percentages.

Three lists are given:

- Cities are listed in descending order of the total number of meetings of type A, with at least 30 such meetings
- Cities are listed in descending order of the total number of meetings of type A+B, with at least 30 such meetings
- Cities are listed in descending order of the total number of meetings of type A+C, with at least 30 such meetings

Caveat: It should be remembered that the number of meetings in the database for the current reporting year will, on average, increase by 25 percent over the following three years, and by 40 percent over the following five years.

City	A: total meetings	A: as % of world	City	A+B: total meetings	A+B: as % of world	City	A+C: total meetings	A+C: as % of world
1 Singapore, Singapore	822	9.3	1 Singapore, Singapore	952	9.5	1 Singapore, Singapore	1055	10.0
