

**Table 9.1.3. Current year  
Top international meeting cities in 2014**

This table is extracted from Table 1.1. Please see the Introduction or the introductory notes to Table 1.1. for an explanation of the column headings "A" and "A+B" and "A+C".

In this table, only the cities with **at least 30 meetings**, whether of type A or type A+B together or type A+C together, are included. The total meetings of all cities, as listed in Table 1.1., is used to calculate the percentages.

Three lists are given:

- Cities are listed in descending order of the total number of meetings of type A, with more than 30 such meetings
- Cities are listed in descending order of the total number of meetings of type A+B, with more than 30 such meetings
- Cities are listed in descending order of the total number of meetings of type A+C, with more than 30 such meetings

**Caveat: It should be remembered that the number of meetings in the database for the current reporting year will, on average, increase by about 11% over the next year, and by about 35% over the following five years.**

City	A: total meetings	A: as % of world	City	A+B: total meetings	A+B: as % of world	City	A+C: total meetings	A+C: as % of world
1 Brussels, Belgium	778	7.3	1 Singapore, Singapore	850	7.9	1 Singapore, Singapore	927	8.3
