

**Table 9.2.4. Fifteen year review
Top international meeting cities 2000-2014: ranking**

This table lists, for each year between 2000 and 2014, the 20 cities with the most meetings of type A per year as currently documented in the database.

Meetings counted under the heading “A” are “Meetings of international organizations” and meet all the following criteria:

- meetings organized or sponsored by “international organizations”, i.e. international non-governmental organizations (INGOs) and intergovernmental organizations (IGOs) that are included in the UIA’s *Yearbook of International Organizations* (see the Introduction “What is an ‘international organization’”) and whose details are subject to systematic collection and updates on an annual basis by the UIA
- with at least 50 participants, or number of participants unknown

Caveat: It should be remembered that the number of meetings in the database can be expected to increase over time: the more recent the year, the more rapid the increase. The average increase is about 11% over the first year, about 25% over the first three years, and about 35% over the first five years.

City	Type “A” in 2000	City	Type “A” in 2001	City	Type “A” in 2002
