

**Table 9.2.2. Fifteen year review
Top international meeting cities 2000-2014**

This table lists the cities with a total of at least 20 meetings of type A during the period 2000 to 2014, giving the number of meetings of type A in each city per year from 2000 to 2014 as currently documented in the database. Cities are listed in alphabetical order.

Meetings counted under the heading “A” are “Meetings of international organizations” and meet all the following criteria:

- meetings organized or sponsored by “international organizations”, i.e. international non-governmental organizations (INGOs) and intergovernmental organizations (IGOs) that are included in the UIA’s *Yearbook of International Organizations* (see the Introduction “What is an ‘international organization’”) and whose details are subject to systematic collection and updates on an annual basis by the UIA
- with at least 50 participants, or number of participants unknown

Caveat: It should be remembered that the number of meetings in the database can be expected to increase over time: the more recent the year, the more rapid the increase. The average increase is about 11% over the first year, about 25% over the first three years, and about 35% over the first five years.
